We grow more outdoor Hardy Chrysanthemum than any other grower in this country. One reason, because we love them. There is nothing more beautiful than a good field of Hardy Mums. Another reason, because our soil is excellent for the growing of Mums. They do well on sandy soils. Our Mums are always free from any disease, rot or blight and will grow anywhere with unusual vigor. See pages 6 and 7.

For Advertising Value during your fall season, there is nothing that gives more color to your sales place, nothing that draws more interest in nursery stock, than a good patch or block of Hardy Mums, planted where the public can see it without effort. There is no cheaper method to advertise your place of business. The above picture tells.
